  - ➔ Designed, built, and deployed a MERN stack-based web application which gives user a platform where he can share story or details about a song .
  - ➔ Set up a database with MongoDB Atlas to store , view, Edit and delete functionality.
  - ➔ Tech: MongoDB, ReactJs, ExpressJs, NodeJs.

- **OS Algorithms Simulator (Operating System, App development, Dart)[Github]**:
  - ➔ Using Flutter created application as a group project in which you can simulate operating system's Algorithms like CPU scheduling, Disk scheduling, Page replacement, Deadlock condition etc.
  - ➔ Used Technologies: C++, Dart, Flutter

HONORS AND AWARDS

- Global Rank 7 on Codechef Long Challenge(FEB-2022)
- Global Rank 90 on Codechef Lunchtime(MARCH-22)
- Flutter UI challenge Rank-3 (PDEU)
- Codesearch- A coding contest in PDEU. Rank – 4(1st in FY)
- Global Rank 52 on Codechef Long Challenge(March-2022)
- CPVerse (GFG) rank-1

VOLUNTEER EXPERIENCE

- **Technical Commitee member at Codechef campus chapter PDEU, Gandhinagar, India**
  Organized Events,was part of workshops on the programming — *2021 - Present*

- **App Development Department - ACM PDEU,Gandhinagar,India**
  Organized Events, Logistics work — *2022 - Present*

- **App Development Department - Encode -The Coding Club of PDEU**
  Organized Events, Logistics work — *2022 - Present*

- **Maintainance Head of Offbeat-The Music Club Of PDEU**
  Organized Events, Did documentation work, Logistics work and Handled inventory — *2021 - Present*

- **Technical Commitee member at Codechef campus chapter PDEU, Gandhinagar, India**
  Organized Events, Did documentation work, Logistics work — *2022 - Present*
